PROFESSIONAL SUMMARY

Frontend Developer with **2.6 years** of professional experience building production **React.js, Next.js and Angular** applications across healthcare, agri-tech, edtech, and fintech domains — including reusable UI components, REST API integration, authentication/authorization flows, and performance optimization. Since September 2025, independently building full-stack applications with **Node.js, Express.js, MongoDB, PostgreSQL, JWT/RBAC**, testing, and Docker, applied across five production-style projects. Comfortable owning features end-to-end and collaborating in Agile teams. Targeting **Frontend Developer, React/Next.js Developer, or Full-Stack Developer** roles.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, SCSS, React Hooks, Redux Toolkit, Context API, React Router, RxJS

Backend: Node.js, Express.js, RESTful APIs, Mongoose, middleware, validation, error handling, JWT authentication, RBAC

Databases: MongoDB, PostgreSQL, SQL, indexing, pagination, aggregation

Testing & Tools: Jest, React Testing Library, Git, GitHub, Postman, Vite, Webpack, Babel

DevOps & Deployment: Docker, GitHub Actions, CI/CD fundamentals, Vercel, Render

Engineering Practices: Responsive design, accessibility, lazy loading, code splitting, memoization, Agile/Scrum, code reviews, debugging

PROFESSIONAL EXPERIENCE

Software Engineer | Doodleblue Innovations, Chennai

Mar 2023 – Aug 2025

- Developed and maintained production web applications using React.js, Angular, JavaScript, and Typescript across healthcare, agri-tech, edtech, and fintech domains.
- Built reusable, responsive UI components from Figma designs using Tailwind CSS, SCSS, Flexbox, and CSS Grid, improving UI responsiveness by 30%.
- Integrated 100+ REST APIs using Axios and Fetch API for authentication, dashboards, appointments, procurement, and business workflows.
- Implemented JWT authentication, protected routes, role-based UI rendering, session handling, and form validation.
- Improved frontend performance through lazy loading, dynamic imports, route-level code splitting, and memoization — reducing load times by 25%.
- Collaborated with backend engineers, designers, and QA to troubleshoot API, authentication, and cross-browser issues; participated in sprint planning, code reviews, and release cycles.

Frontend Developer Intern | Doodleblue Innovations, Chennai

Jun 2022 – Mar 2023

- Developed responsive React, HTML, and CSS components for internal applications using media queries, Flexbox, and CSS Grid.
- Integrated screens with REST APIs and handled loading, success, empty, and error states, reducing support tickets through improved mobile usability.

FULL-STACK DEVELOPMENT — SELF-DIRECTED UPSKILLING (MERN)

Sep 2025 – Present. Independent, project-based learning in Node.js, Express.js, MongoDB, PostgreSQL, authentication, API design, automated testing, Docker, CI/CD, and deployment — applied hands-on across five production-style full-stack projects (see below), including end-to-end application architecture, secure API patterns, database models, and role-based authorization.

SELECTED PROJECTS

SmartClinicQ — Multi-Tenant Clinic Queue Management SaaS

Technologies: Next.js, React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, JWT, RBAC, Socket.io, Docker

- Built a full-stack clinic queue management SaaS application for patients, appointments, queues, public booking, and real-time queue status.
- Implemented tenant isolation, role-based authorization, access/refresh-token authentication, validation, centralized error handling, search, filtering, and pagination.
- Developed Socket.io room-based real-time updates and applied security controls including Helmet, strict CORS, rate limiting, and secure cookies.

DigiGrain — Agri-Tech Procurement Platform

Technologies: React.js, Redux Toolkit, Tailwind CSS, REST APIs, JWT, RBAC

- Developed responsive dashboards and workflow screens for a multi-role procurement platform with JWT authentication and role-based UI experiences.

MeraDoc — Telemedicine Platform

Technologies: React.js, Redux Toolkit, Tailwind CSS, React Router, REST APIs, JWT, PWA, Jest

- Built patient and doctor interfaces for appointment booking with PWA caching, Redux state management, and unit tests using Jest and React Testing Library.

Sanchu Animal Hospital — Veterinary Care Platform

Technologies: Next.js, React, Redux, REST APIs, Responsive Design

- Built responsive pet management, appointment, and record-viewing workflows using Next.js rendering and dynamic imports.

Miles Education — EdTech Learning Platform

Technologies: Angular, TypeScript, RxJS, REST APIs, JWT

- Developed learning modules and student dashboards with RxJS-driven workflows and JWT-protected REST APIs.

EDUCATION

Bachelor of Computer Applications (BCA) — University of Madras, Distance Education

2022 – 2024

Diploma in Electrical and Electronics Engineering — Sankar Polytechnic College, Tirunelveli

2008 – 2011

CERTIFICATION

- The Complete Full-Stack Web Development Bootcamp — Udemy, Dr. Angela Yu
