PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience building production web applications using React.js, Typescript and Next.js. Strong in component architecture, performance optimization, responsive UI, authentication and REST API integration. Built Auditrail, a Next.js audit-log explorer handling 510K+ events, with virtualized infinite scroll, keyset pagination, URL-driven filters, accessibility testing and CI/CD. Experienced working with designers and backend engineers in Agile teams.

CASE STUDIES

Auditrail: Multi-Tenant Audit Log Explorer Built for 500K Events

Project Type: Full-stack web app (Next.js App Router, Express, PostgreSQL(Neon)

Scale: 510,501 seeded events, multi-tenant

Tech Stack: Next.js, React, Typescript, Tailwind CSS, Express, Prisma, PostgreSQL (Neon), Tanstack Query, Tanstack Virtual, Zod, Vitest, Supertest, Playwright, axe, GitHub Actions

Challenge: Audit logs grow to hundreds of thousands of rows, making full loading and OFFSET pagination slow, while tenant data must remain isolated.

Solution: Built a virtualized event explorer with server-side filtering, keyset pagination and URL-synchronized filters for shareable and back-button-safe views.

Results:

- Built a virtualized infinite-scroll table using TanStack Query and TanStack Virtual, keeping only a small window of rows in the DOM while supporting 510,501 events.
- Implemented search, level, service, action and date-range filters synchronized with the URL, with keyboard shortcuts and loading, empty, error and not-found states.
- Implemented password less magic-link authentication and tenant-scoped authorization; integration tests verified that cross-tenant access is blocked.
- Wrote 161 Vitest tests, including 95 frontend/component tests, 54 API unit tests and 12 real-database integration tests; added 44 Playwright end-to-end tests with axe WCAG AA checks in light and dark mode.
- Achieved Lighthouse scores of 100 for Performance, Accessibility, Best Practices and SEO on desktop, and 94 Performance on mobile with 2.4s LCP.
- Set up GitHub Actions CI for formatting, typechecking, linting, unit tests, build and Playwright E2E tests; deployed the frontend to Vercel.

Live Demo: https://rajakumaran.vercel.app/projects/auditrail

Proof of work: github.com/rajakuma6an2022/auditrail-web, github.com/rajakuma6an2022/auditrail-api

CORE COMPETENCIES

- Frontend Architecture (React.js, Next.js App Router, Server Components)
- Performance Optimization (virtualization, lazy loading, code splitting, dynamic imports)
- REST API Integration & State Management (Axios, TanStack Query, Redux Toolkit, Context API)
- Authentication & Security (JWT, cookie sessions, magic-link auth, RBAC, tenant isolation)
- Testing & Quality (Jest, React Testing Library, Vitest, Playwright, axe accessibility testing)
- Responsive & Accessible UI (Tailwind CSS, Figma-to-code, WCAG AA, CSS Grid, Flexbox)
- CI/CD & Deployment (GitHub Actions, Vercel, Git)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks: React.js, Next.js (App Router, Server Components)

State Management: TanStack Query, Redux Toolkit, Context API

Styling: Tailwind CSS, SCSS, Responsive Design, CSS Grid, Flexbox

Forms & API Integration: REST APIs, Axios, JSON, React Hook Form

Testing: Jest, React Testing Library, Vitest, Playwright, axe Accessibility Testing

Tools: Git, GitHub Actions (CI/CD), Vite, Webpack, Babel, Vercel, Figma handoff

Practices: Agile/Scrum, Code Reviews, Performance Optimization, Component Reusability

WORK EXPERIENCE

Software Engineer (Frontend) Mar 2023 – Aug 2025
Doodleblue Innovations *Chennai, India*

- Developed and maintained enterprise web applications using JavaScript, Typescript, React.js and Tailwind CSS, with mobile-first layouts and reusable responsive components.
- Integrated REST APIs using Axios for real-time data exchange; improved page load times through lazy loading and code splitting.
- Built reusable, accessible UI components following clean-code principles, reducing code duplication across applications.
- Converted Figma designs into production-ready interfaces with design and backend teams; implemented JWT authentication and secure session handling.
- Performed cross-browser testing and resolved UI and performance issues; took part in sprint planning, stand-ups, code reviews and weekly demos.

Key Projects:

- **DIGIGRAIN (Agritech Procurement Platform):** Led frontend for a role-based procurement platform (React.js, Redux Toolkit,React Hook Forms, Tailwind CSS, JWT, RBAC) with role-based dashboards; improved performance with lazy loading and Webpack optimizations.
- **MERADOC (Telemedicine Platform):** Built responsive appointment-booking UI and role-based dashboards (React.js, React Router v6, REST APIs, React Hook Form); wrote unit tests with Jest and React Testing Library.
- **Sanchu Animal Hospital (Veterinary Platform):** Developed a pet-care and e-commerce portal (Next.js, Redux) with appointment scheduling and pet-health tracking; improved load speed with dynamic imports and lazy loading.

Frontend Developer Intern Jun 2022 – Mar 2023
Doodleblue Innovations *Chennai, India*

- Built responsive UI components with HTML, CSS and React; improved mobile usability using media queries and responsive grid systems.
- Debugged and fixed UI defects, leading to fewer support tickets; contributed to documentation and knowledge-transfer sessions.

Career Break: Job Search and Portfolio Projects Aug 2025 – Present
Self-directed learning *Chennai, India*

- Doodleblue role ended due to a company-wide layoff in Aug 2025; focused on job search and building production-quality portfolio projects.
- Built Auditrail end to end using Next.js, Express and PostgreSQL, covering UI architecture, authentication, testing, accessibility, CI/CD and deployment(see Case Studies).

EDUCATIONAL QUALIFICATION

Bachelor of Computer Applications, University of Madras (Distance Education) 2022 – 2024

Diploma in Electrical and Electronics Engineering, Sankar Polytechnic College 2008 – 2011

CERTIFICATION

- The Complete Full Stack Web Development Bootcamp, Udemy (Dr. Angela Yu)
